

Armada 1 Enterprise-D

The *Enterprise-D* of the game *Star Trek: Armada* is one of the Federations [hero ships](#). Is is **not** available in the [singleplayer campaign](#) (unlike the »normal« [Galaxy](#) class) but may be available on custom maps and in mods. It is, however used in the final cut scene to finish the continuity loop of the campaign story. It is basically an improved version of the Galaxy class, enlarged by 28%. It does however use slightly different textures (see blow) showing its serial number and name. It also represents the character of Jean-Luc Picard as its captain.
