

Armada 1 Rift Creator

The Rift Creator is a special weapon of the game [Star Trek: Armada](#). It can be considered a weapon of mass destruction, as it inflicts considerable damage on a large area of the map. It is effective within a certain radius of the casting ship, which is destroyed as well (suicide). It looks like this:

An active [Corbomite Reflector](#) has no effect on this special weapon. The [Shield Remodulation](#) on the other hand, does protect from it, as well as the [Phase Cloak](#). As the latter does have a bit longer duration than its animation, to early decloaking can become a lethal mistake. This weapon is not researched in the conventional sense but is automatically present, when building a [Phoenix class ship](#). The resource cost is accordingly that of a [Phoenix](#) ship.

Property	Value
Build Time	300
Supply Cost	5 (1/min)
Dilithium Cost	3000 (10/s)
Special Energy Cost	1000

When this weapon is used, *all* involved players will be notified of the event. This weapon does not need any special weapon energy, making it exploitable by the [Free Phoenix](#) move.
